MEDICINAL.

JUMPING UP

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a confirmed dyspeptic, and he cannot expect to be cured in a few days.

There is no quicker means of cure for dyspepsia or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and builds up the body with blood and solid muscle.

"I was taken sick two years ago," writes Rev. W. H. Patterson, of White Cloud, Ala., "with what the doctors thought was gastric trouble, indigestion or nervous dyspepsia, also constipation and inactive liver. I was in a dreadful condition. Tried several different doctors with but little result. I had gotten so feeble that I was almost past traveling about. I went and bought six bottles of 'Golden Medical Discovery,' and got the 'Pellets' and began following directions. When I had taken about five bottles I felt very much better and was greatly improved. I weighed one hundred and thirty-eight pounds. I will say that Dr. Pierce's medicines are a God-send to poor suffering humanity, and I advise any and all chronic sufferers to give them a fair trial and they will be satisfied."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

CITIZENS' INDUSTRIAL ASSOCIATION.

To eliminate the walking delegate is one of the specific purposes of the recently organized Citizens' Industrial Association of America. The organization included in its basic principles an open shop, no sympathetic strikes, no restriction in the number of apprentices and output, and the enforcement of the law.

These facts were developed at the meetings of the executive committee, which were concluded in Dayton, Ohio, yesterday, clearly indicating the line of battle between the employers and the labor unions.

A resolution was adopted asking Congress not to endorse the eight-hour bill, when that document comes up for action. Another resolution requests all employers' associations throughout the country to affiliate with the national body.

The determined stand to be taken by the association is indicated in the passage of a resolution instructing all members of employers' associations affiliated with the national body not to place the union label on any of their output.

It is proposed also to establish a labor information bureau, where will be kept a tabulated record of all law-breaking and undesirable workmen.

The present methods employed by unions in conducting a boycott were bitterly denounced.

A bureau of organization, publication and education will likely be located at Dayton, although the headquarters will be at Indianapolis.

The following platform was adopted as an open letter to the public and affiliated associations:

"Resolved, By the executive committee of the Citizens' Industrial Association of America, that the present industrial conditions have become so deplorable by reason of the indefensible methods and claims of organized labor that the time has come when the employing interests and good citizenship of the country must take immediate and effective measures to reaffirm and enforce these fundamental principles of American government guaranteeing free competitive conditions.

"In its demand for the closed shop organized labor is seeking to overthrow individual liberty and property rights, the principal props of our government. Its methods for securing this revolutionary and socialistic change in our institutions are also those of physical warfare. Because of this warfare the industrial interests of the nation during the last years have been injured to an irreparable degree. Many firms have been driven into bankruptcy, and the cases are innumerable in which workmen have been disabled and even murdered, while numerous families have been rendered destitute by reason of the tyranny and seditious attacks upon society by the strike organizations.

"A condition of anarchy has existed continuously in some States for months past, and in fact, the acts of lawlessness committed under the sacred name of labor are of such frequent recurrence that the public sense of their enormity has become blunted. The period of great prosperity brought about by the unrestricted operation of the law of supply and demand is also being destroyed by the acts of violence of organized labor, and as a result we are now confronted with the possibility of a period of depression.

"While we most emphatically object to being classed as enemies of organizations of labor that are conducted upon lawful and beneficial lines, yet we are unalterably opposed to the present programme of violence, boycotting and tyranny now being carried out by the majority of labor unions.

"We therefore urge the rapid organization of those who believe in the maintenance of law and order and the perpetuation of our free institutions, to the end that they may wield their full and proper influence upon the destinies of the nation. Since organizations exist for the apparent purpose of defying law and common sense, and are able to intimidate and influence public men and municipal authorities, there is no alternative left to those who desire to preserve bearable conditions in our body politic than that of forming counter organizations.

"It is only through the machinery of organization that we can hope to exercise a potent and salutary influence over public thought and the conduct of public officials, to the end that the rights of American citizenship can be assured to free and independent labor, the rights of property protected and legislation of a socialistic nature prevented from being enacted into law.

"We invite all associations, local, State, and national, that sympathize with the purpose of the Citizens' Industrial Association of America to enter into affiliation with us at the earliest practical time, and we urge the immediate formation of local branches of the national organization in all the cities and towns where no organizations now exist that are eligible for membership in this association.

"The committee herewith instructs

Uncle Sam says it's all right

Uncle Sam, in the person of ten of his government officials, is always in charge of every department of our distillery. During the entire process of distillation, after the whiskey is stored in barrels in our warehouses, during the seven years it remains there, from the very grain we buy to the whiskey you get, Uncle Sam is constantly on the watch. We dare not take a gallon of our own whiskey from our own warehouses unless he says it's all right. And when he does say so, that whiskey goes direct to you, with all its original strength, richness and flavor, carrying a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY and AGE, and saving the dealers enormous profits. That's why HAYNER WHISKEY is the best for medicinal purposes. That's why it is preferred for other uses. That's why we have over a quarter of a million satisfied customers. CRISIS IN COTTON MILLS.—That a widespread curtailment of production by cotton mills in the United States will be found necessary during the next few months on account of the great cost of the raw material is the opinion of leading mill men in Boston from which the policy of many cotton mills in the North is directed. The market for finished material has been unsatisfactory for months, and prices have not risen correspondingly with those of cotton. The cotton mills in New England employ fully 175,000 hands, 65,000 of whom have had their wages reduced 10 per cent. this fall, and 15,000 additional will be cut out within the next two weeks. A matter of great interest in New England is the project now on foot in the southern States to bring about a general curtailment. A meeting of southern manufacturers has been called for next Tuesday, and if a policy of widespread curtailment is adopted it will have much influence on the future action in large New England mill centers.

Better than a Plaster.

Materials fancy, waisting wool, crash, mohair, madras, poplin and saten. The finer Waists came one in a box all ready for Christmas. It is a credit to the Union Novelty people that we have this news to tell—a credit to their energy, their progressiveness, their strenuous ways. They have one of the largest waist factories in the country—340 machines or so. They have made their trade mark as valuable to their product as sterling is to silver. They work full steam in dull times or bustling times, making waists the best they know how, not bothering about selling them. This policy is their success. Now and again they over-produce, but what of that? Forget the loss and begin again, they say. The 240 waists are an over-production this year. Their machines are working on spring orders and they want these out of the way.
